

F. L L I R I Z Z I N I

In the case of F.lli Rizzini, less is more. Our friend Stefano Rizzini, along with his uncle, brothers and cousins in Magno, Italy, make what we at Old Friends think are the best of all the world's side-by-side boxlock and sidelock shotguns. And they make no more than 20 a year.

This family's high standards are expressed through passionate attention to quality and detail, resulting in guns of extremely high performance and durability. Unusual internal features make these guns exceedingly safe to handle, and trigger quality and barrel pattern performance are exceptional. The great care taken in the finishing process results in aesthetically stunning firearms of long-lasting value.

Engraving on Rizzini guns is executed with incredible precision, and should be seen in person to fully appreciate the visual impact of the artistry involved. Old Friends will do its best to have a stunningly engraved gun available for potential customers to view when they visit us in Argentina, Pennsylvania or Montana.
